Vol. 18 No. 3.

August 1990.

President's Report. 1990.

Another year with some very wet weather has passed, however we have enjoyed fine days for our public running days and the treasurer's report confirms that we still have the continued support of the general public.

The Society now has 69 full members with 2 provisional members. Regretably *Tom Myles* who was a provisional member died before qualifying for full membership.

The ladies who continue to operate the kiosk throughout the year have our most grateful thanks, they would be only too pleased to welcome any newcomers to their ranks.

A charity day was held for the Crowle Home in September and was again very successful.

The annual Convention this year was held in Brisbane, unfortunately we were not represented. Interclub visits to the Blue Mountains and Lake Macquarie were attended by a number of members on each occasion.

The carriage shed extension is nearing completion, this has eliminated a lot of labour associated with the riding cars on running days. The steel door is yet to be fitted to the storage room and lighting installed to complete the project.

The " Model Engineer " library is now organised and available to our members.

Design drawings are about to be submitted to the local council for their approval for the construction of a new public access footbridge with ramps over the tracks at the southern end of the grounds.

The new flood lighting over the stations, steaming bays and barbeque areas are greatly appreciated by the members packing up after run days in the winter months.

Construction of guards riding trucks is proceeding and it is hoped to trial the first truck at the June run day.

Our Secretary, Alan Mackellar who intends retiring from this position has given the Society ten years of outstanding service and I am sure you will all join me in thanking him for a job well done.

I also wish to thank the Directors and members for their help and support throughout the past year.

Jim Hyde.
President. S.L.S.L.S.
